Cross-Platform Mobile Application Development

Lab 2 HTML

Exercise 2

- Create a new html file called `Exercise2.html` and put in the following table:

Number	Heading	Complete
1	Introduction	Yes
2	History of Mobile Devices	Yes
3	Android	Yes
4	Development Options	Yes
5	Frameworks	Yes
6	Model View Controller	No
7	AngularJS	No
8	Ionic	No

To get the table exactly as specified above you'll need the following CSS Selectors:

- `table`
- `td`

and the following CSS properties:

- `border`
- `border-width`

- Put a comment in the HTML saying "This is my second html page".
- Put a comment in the CSS saying "This styles the table".
- Add a button with the title "OK" underneath the table as follows:

7	AngularJS	No
8	Ionic	No

OK

Note the spacing between the button and the bottom of the table.

- Create another webpage called `Exercise2a.html`
- Put the following image on the page:
http://espn.go.com/i/page2/index/page2_index_203x114.jpg

- Put a link called "Goto Page 2" into `Exercise2.html` and link it to `Exercise2a.html`
